

Kiln Cottage

This property is part of a converted barn.

It has 4 steps up to the patio at the front and from then on is on one level on the ground floor with a large open plan living space with kitchen, dining area and living room.

There is large shower room and toilet downstairs.

The first floor is accessed through a door to a small hallway and a staircase that divides to go either side of a beam.

The double-bedded room has en-suite facilities with a bath.

There is a further bathroom (with bath) next to the twin-bedded room but it is not en-suite.

Both bedrooms have sloping ceilings but plenty of headroom.

There is a door from the hallway out onto a back patio and four steps up to the car parking area at the rear of the property.
